T.W. TO BE SOLD TO TEXAS AIR CORP. FOR $793.5 MILLION

FOREIGN ROUTES A FACTOR

Move to Form 26 Biggest U.S. Carrier Spurred by Efforts to Thwart Bid by Icahn

by JOHN CRUESE

Texas Air Corp. says it had a limited need to acquire the Continental and American Airlines. Icahn had offered $1 billion to the two carriers.

The $1 billion offer is the latest in a series of attempts to thwart a bid by the Texas Air Corp. for the Trust in the last 12 months.

The carrier, which operates under the name Continental and American Airlines, says it has been able to secure a significant amount of financing for its bid.

The carrier is also seeking to acquire a significant stake in the Trust for its own use.

The carrier's bid is expected to trigger a legal battle, as the Trust has a history of bidding against large airlines.

The carrier's bid is also expected to be met with stiff competition, as several major airlines, including American and Continental, have already made offers for the Trust.

The carrier is also seeking to acquire a significant stake in the Trust for its own use and to expand its reach.

The carrier has been seeking to acquire the Trust for several years, and has made several bids in recent months.

The carrier is seeking to purchase the Trust for $1 billion, which is significantly more than the current market value of the Trust.

The carrier is also seeking to purchase the Trust's network of flights and airports.

The carrier has a long history of bidding against large airlines, and has been able to secure significant amounts of financing in the past.

The carrier is also seeking to expand its reach and acquire new routes.
